Section I

SAIC-Frederick, Inc.	Emergency Telephone Number 1-800-255-3924	
Address Building 457; P.O. Box B Frederick, MD 21702-1201	Telephone Number for Information 301-846-1821	
	Date Prepared	
Name of Preparer: Signature: _____ Date: _____		
Steven Giardina		4-2-07
Safety Officer:	Signature	Date
Reviewed By (SEPP): Name: _____ Signature:  _____ Date: 4/4/07		Reviewed By (BQA): Name: _____ Signature:  _____ Date: 4/2/07

Section II – Ingredients/Identity Information

Components (Specific Identity; Common Name(s), (Strength, Buffer)) hOKT-3 gamma-1 (Ala, Ala) 1.1mg/mL, 1.2mM Citric Acid, 18.7mM Sodium Citrate, 100mM NaCl, 5% Maltose, pH 6.2

Section III – Physical/Chemical Characteristics

Solubility: The product is a recombinant protein and is soluble in aqueous solutions.
Appearance Colorless, clear to slightly opalescent

Section IV – Fire and Explosion Hazard Data

Flash Point (Method Used) Not applicable	Flammable Limits: Not applicable	LEL: Not applicable	UEL: Not applicable
Extinguishing Media: This product does not constitute a fire hazard.			
Special Fire Fighting Procedures: Not applicable			
Unusual Fire and Explosion Hazards: Not applicable			

Section V – Reactivity Data

Stability	Unstable		Conditions to Avoid
	Stable	X	N/A
Incompatibility (<i>Materials to Avoid</i>): None			
Hazardous Decomposition or Byproducts: None Known			
Hazardous Polymerization	May Occur		Conditions to Avoid: None known
	Will Not Occur	X	

Section VI – Health Hazard Data

Route(s) of Entry:	Inhalation? Not Known	Skin? Not Known	Ingestion? Not Known
Health Hazards (<i>Acute and Chronic</i>): This product is a recombinant monoclonal antibody that is being evaluated for the treatment of Type I Diabetes. It is a highly purified, immunologically active protein whose full range of toxicities is not known.			
Carcinogenicity: No information is available	NTP? No	IARC Monographs? No	OSHA Regulated? No
Signs and Symptoms of Exposure: This product is an investigational drug. Its full range of potential toxicities is not known. There is no evidence that this entity represents a contact hazard. However, practices that may cause accidental inhalation or injection should be avoided.			
Medical Conditions Generally Aggravated by Exposure: This product is an investigational drug. No information is available.			
Emergency and First Aid Procedures: This product is an investigational drug whose full range of toxicities is not understood. All skin exposures should be cleaned with a detergent solution and rinsed with copious amounts of water. Inhalation or accidental injections should be reported immediately to EHS.			

Section VII – Precautions for Safe Handling and Use

Steps to Be Taken in Case Material is Released or Spilled: This product is non-infectious. Spills should be contained with absorbent material. The area of the spill should be cleaned with detergent solution and/or 1 part 5.25% sodium hypochlorite plus 9 parts water.

Waste Disposal Method: Standard methods for the removal of protein solutions

Precautions to Be taken in Handling and Storing: The product is a recombinant antibody. Practices consistent with avoiding direct contact with skin, mucous membranes or inhalation are recommended. The product should be stored at 2°-8 °C

Section VIII – Control Measures

Respiratory Protection (Specify Type):

No

Ventilation:

Not required

Local Exhaust:

Not required

Special No.:

Not required

Mechanical (General): Not required

Other: Not required

Protective Gloves:

Yes

Eye Protection:

Yes

Other Protective:

No exposed skin. Avoid the possibility of aerosol generation or accidental skin punctures.

Work/Hygienic Practices:

Practices consistent with the handling of a biological drug whose full range of toxicities are not known. The acute and chronic toxicities associated with exposure to this agent are under investigation,
